

BLU-RAY 3D DISC PLAYER

WITH NETWORK FUNCTIONS, FRONT USB, SACD SUPPORT PQLS, DVD-AUDIO
AND ALUMINIUM FRONT PANEL

Hi-quality Blu-ray 3D and so much more.

The BDP-440 combines 3D playback with advanced networking features, superior audio performance, control with iPod/iPhone/iPad, Android phones and Quick Response and support for SACD & DVD-Audio. The BDP-440 will upconvert DVD video to near HD-quality. From CD, USB and through LAN you can play popular compressed media formats such as MP3 and DivX Plus HD. Sound Retriever Link and Stream Smoother Link will enhance compressed audio/video files when used in combination with our matching AV Receivers. Via LAN (optional WiFi converter for wireless LAN available), you get access to network features such as BD-Live, watching YouTube, and playback from a PC or network media server (connected to the same LAN and featuring multimedia content server functionality). You can also control the player with the Pioneer iControlAV2 app. Our unique PQLS ensures jitterless transmission of uncompressed 2-channel or multi-channel LPCM, and also bitstream audio over HDMI to compatible Pioneer AV receivers.

- Network Functions (DLNA / BD-Live / Picasa / YouTube™)
- Blu-Ray 3D Playback
- IP control
- WiFi ready (via optional converter AS-WL300)
- 36-bit Deep Colour
