

Announcing MultEQ-X Pro!

What is MultEQ-X Pro?

MultEQ-X Pro is a new version of MultEQ-X designed specifically for professional AVR installers and their businesses.

How is it different from MultEQ-X?

It has all the same technical features as MultEQ-X, but it adds an improved licensing system that is easier for business users to manage.

Is it a separate download from MultEQ-X?

Yes. You download and install it directly from our new Pro web site. The Pro web site also lets you keep track of all your licenses in one convenient place.

Does MultEQ-X Pro still require a Microsoft account?

No it doesn't! We received a lot of feedback that requiring a Microsoft account was inconvenient, so we eliminated it. With MultEQ-X Pro there's no need to create a Microsoft account, and no need to visit the Microsoft Store.

So how do I purchase licenses?

Directly from us! You can place an order with our sales department (sales@audyssey.com).

I'm already using MultEQ-X. Why should I switch to MultEQ-X Pro?

Besides the improved licensing system, we are offering a minimum 10% discount on every order, with even greater discounts for large orders. You also get service and support directly from our sales department. The only requirement is that you must purchase at least 5 licenses.

What if I've already bought some MultEQ-X licenses? Can I transfer them to MultEQ-X Pro?

Yes you certainly can. We will happily move your licenses to Pro, but you must purchase enough additional licenses to meet the 5 license minimum.

Sounds good. How do I get started?

All you have to do is email us at sales@audyssey.com and we will be happy to answer any questions.

Anything else I should know?

Only that MultEQ-X has been getting amazing reviews! Here are a couple of the most recent ones:
